EDUCATION

SZABIST University — Karachi, Pakistan *Expected Jun 2027*

Bachelor of Science in Computer Science | CGPA: 3.6 / 4.0

Relevant Coursework: Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence, Database Systems, Network Security, Web Technologies, Software Quality Engineering & Testing

INTERNSHIP EXPERIENCE

DUA Department – SZABIST University *Dec 2025 – Present*

- Validated data integrity across institutional MoU repositories, supporting information security compliance and reducing risk of unauthorized data exposure.
- Strengthened document security controls by maintaining structured audit trails, controlled access protocols, and secure digital record management.
- Assisted in identifying compliance gaps and operational risks through structured data analysis and risk-focused reporting.

UNIVERSITY PROJECTS

Airline Ticketing & Reservation Management System *Oct 2025 – Jan 2026*

ASP.NET Core 8 MVC | Entity Framework Core | MS SQL Server | github.com/Mustafa-Hazard/AirlineTicketingSystem

- Developed a full-stack reservation system following enterprise MVC architecture with role-based authentication (Admin, Passenger).
- Implemented flight search, booking lifecycle management, seat availability tracking, PDF e-ticket generation, and revenue reporting using optimized queries.

Attendance Management System *Oct 2025 – Dec 2025*

Node.js | Express.js | PostgreSQL | EJS | github.com/Mustafa-Hazard/Attendance

- Built a role-based system supporting Admin, Faculty, and Student logins for managing classes, marking attendance, and viewing records.
- Implemented secure bcrypt authentication, session management, flash messaging, and a responsive admin panel for class and student management.

Student CGPA & Probation Tracker *Apr 2025 – Jun 2025*

Node.js | PostgreSQL | Alpine.js | Firebase Hosting | github.com/Mustafa-Hazard/Student-CGPA-Probation-Tracker

- Designed REST APIs and complex SQL queries to calculate live CGPA and identify students on academic probation across multiple departments.
- Deployed via Firebase Hosting with a scalable architecture; improved query performance by 30% for large student datasets.

TECHNICAL SKILLS

Languages: Java (Advanced), Python, JavaScript (Node.js), TypeScript, SQL
Frontend: React, Next.js, Alpine.js, HTML, CSS
Frameworks: ASP.NET Core MVC, Entity Framework Core, Express.js
Databases & Cloud: PostgreSQL, MS SQL Server, Firebase
Tools: Git/GitHub, Docker (basics), Wireshark, Splunk (basic)
OS & Systems: Windows, Linux (CLI, SSH, system hardening)
Cybersecurity: Log analysis, NIST frameworks, Linux hardening, Incident reporting

CERTIFICATIONS

Google Cybersecurity Professional Certificate	*Oct 2025*
Google AI Essentials	*Oct 2025*
Linux for Beginners	*Jul 2025*
Python Pro	*Apr 2025*

LEADERSHIP & ACTIVITIES

ACM SZABIST — Core Team Member *Sep 2025 – Present*

- Assisted in organizing technical events, workshops, and hackathons; supported logistics, coordination, and technical tasks for student tech activities.
